

SECURITY SOLUTIONS IN ACTION...

VISUAL CONSULTING
INCORPORATED

Working under the Utah Olympic Public Safety Command (UOPSC), public safety officials for the 2002 Salt Lake City Winter Olympic Games required a situation-management and anti-terrorism preparedness system to aid security forces at the Games. In Fall 2001, UOPSC began development of a security/readiness solution based on Responder Assets Management System (RAMSAFE).

The solution was distributed to the federal law enforcement, security, and intelligence agencies including the FBI, Secret Service, US Army, Bureau of Diplomatic Security, as well as used by the Utah Olympic Public Safety Command (UOPSC) and several Police departments.

Visual Consulting developed RAMSAFE for the Oak Ridge National Laboratory and subsequently licensed the technology in RAMSAFE to Y-12 for which Visual Consulting recently received a Technology Transfer award from the Federal Laboratory Consortium.

Client Testimonials:

"...I felt confident that we were prepared to handle whatever situation would come our way, and your product (RAMSAFE) was a significant element in that preparation."

**David Tubbs, Executive Director
Utah Olympic Public Safety Command**

SECURITY SOLUTIONS IN ACTION...

VISUAL CONSULTING[®]
INCORPORATED

"I was amazed at [RAMSAFE's] ability to gather that much information and integrate it into one system so quickly and efficiently. This significantly improved our tactical response capabilities."

Major Stu Smith, Deputy Director
Utah Olympic Public Safety Command

"The overall situational awareness RAMSAFE brings can't be beat in its capability to allow end users to prepare for emergencies...we used RAMSAFE for tactical planning and tabletops."

Craig Dearden
Director of Public Safety
Weber State University

"I am extremely impressed with the capabilities of RAMSAFE, the ease of operation, and the critical support element this system provided to our Olympic security operations."

Lloyd Evans
Chief of Police
Park City, Utah

"I am deeply satisfied with Visual Consulting's expert work in developing the portions of RAMSAFE deployed at the Salt Lake City Olympics."

Jon Gordon
Former Deputy Chief of Police & President of
RAMSAFE Technologies, LLC.
Atlanta, GA
